

## special offer for march

**For the month of March the first 10 people to refer friends and family to us will receive a chiropractic pillow!**

### above - down - inside - out

#### above

Above is about life force. The power that made the body heals and coordinates function and life potential.

#### down

Down is about bringing life force or energy into the body and helping the master control system, 'the brain' communicate the wellness message throughout the body, via the nerve system.

#### inside

Inside is the generator. Without your control system working properly, we can hardly expect optimal life expression.

#### out

Out is about doing it! Allowing the pure expression of growth, health, energy and enthusiasm for life that is expressed when our body is free to do so!

### clients of the month...

Chiropractic research enables us to provide you with the most revolutionary care. The following clients will have their fees donated to the Australian Spinal Research Foundation this month.

#### Thank you to:

## your gratitude rewards program

**c4w newsletter  
march 2007**

## time to say thank you

In this day and age it's not often we are acknowledged for the things we do.

Whether we put in that extra mile at work or do a few things to make our partner's day easier, it's great when someone takes the time to say thanks.

One of our highest values at chiropractic4wellness is showing gratitude. Not only to each other, but our clients and the people that help us along the way.

That was our impetus for launching our Gratitude Rewards Program. We wanted you to know how much we appreciate you referring your friends and family to us.

Some of you may be familiar with the program and some of you have already become members and received fantastic gifts.

Why don't you take advantage of what we have on offer and find out more about the Gratitude Rewards Program.

## thought for march...

"Saying thank you is more than good manners. It is good spirituality".

*Alfred Painter*
